

# Memo

**To:** Infrastructure Committee members  
**From:** Ann Bailie  
**CC:** Council member Lambeth; Staff; Randy McNeill  
**Date:** May 25, 2007  
**Re:** June Meeting Cancellation

---

**Please be advised that the Infrastructure Committee meeting scheduled for June 5, 2007 has been canceled due to lack of agenda items.**

## Update

I have not yet heard back from Lynn Patterson (Duke Energy) on the following items:

- Fairview Church Rd. lighting design that was submitted to DOT
- Contracts for additional lighting (underground wiring) at I-85 and Finch Farm and Hopewell Church roads
- Plans for lights on Ronniedale

The Darr Rd. sewer system has been completed to the extent that residents may connect to the system. The Community Development Block Grant (CDBG) obtained for the project has been closed out.

The City's CDBG consultant, Benchmark CMR, is surveying Jerry St. to determine if the City should apply for a CDBG for sewer installation in that area. Jerry St. is in Phase 3.

A Council subcommittee (Barry Lambeth, Dwight Meredith, Miles Talbert) has been appointed to work with the City of Archdale and Randolph County on determining the feasibility of constructing a wastewater treatment plant southeast of Trinity on the Uwharrie River. The first meeting was earlier this month.

Infrastructure Committee member Mickey Callahan has been appointed to the City's new Public Safety Board. He will continue to serve on Infrastructure until a replacement is appointed.

Don't hesitate to contact me if you have ideas, questions or concerns about City business. See you in July –
